CDG LED Lighting Series

Superior, Stronger, Safer and Last Waaaaaaay Longer

* Typical incandescent lights last about 1500 hours. Fluorescent lights last about 5000 to 10,000 hours. LED (Light Emitting Diode) lights are not only much safer and offer a superior quality of light,

The Clean Development Group (CDG), all rights reserved.

they also last a lot longer - 60,000 hours; industrial grade last up to 100,000 hours.

Spec Sheet

Whether you wish to make a difference by changing the old, unsafe, energy and money wasting lights in your home, office or complex, consult us for a complete line of LED lighting options. We also make an extensive line of specialized indoor and outdoor lighting for high-end design and industrial needs. Some of the advantages of LED lighting are listed below:
